ABOUT ME

Frontend Developer (expanding to **Full-Stack**) with expertise in **JavaScript, React, Tailwind CSS, Next.js 15 & MongoDB**. Passionate about crafting **performant, accessible, and responsive UIs** with modern tools while actively learning backend technologies to develop full-stack solutions. Strong foundation in **frontend fundamentals** and a focus on clean, maintainable code for modern web applications.

PROJECTS

PassOP – Password Manager | (React, Tailwind CSS, Netlify) | [Link](#)

- Engineered a secure and interactive password manager with local storage for safe data handling.
- Integrated animated UI components and toast notifications for enhanced user engagement.
- Focused on accessibility and performance using Tailwind CSS and modern React practices.

BitLinks – URL Shortner | (Next.js 15, Tailwind CSS, MongoDB, Vercel) | [Link](#)

- Built a full-stack URL shortener with 3 pages, allowing users to generate custom short links.
- Integrated MongoDB to store original/shortened URLs and implemented a contact form API that auto-sends submissions to your email.
- Deployed on Vercel with optimized performance, featuring a responsive Tailwind CSS UI for seamless cross-device use.

BitTree – Custom Link Aggregator | (Next.js 15, Tailwind CSS, MongoDB, Vercel) | [Link](#)

- Built a LinkTree clone enabling users to create personalized link pages with handles, profile pictures, descriptions, and social links.
- Used MongoDB for secure data storage and dynamic content rendering via Next.js API routes.
- Custom URL generation for easy sharing, Form validation and toast notifications for smooth user onboarding, Responsive UI with Tailwind CSS for seamless cross-device access.
